ABSTRACT

George Eliot was about thirty-six years old when she started writing novels. The earlier part of this long period was spent in observing the beautiful natural scenery of the English midlands and listening to the dialect of the rustics. After she had moved to Coventry with her father she came under the influence of the Brays and the thinkers who used to frequent their house. She held discussions with them and she read all the new books on science and philosophy that were appearing in those days. She was greatly influenced by the revolutionary ideas of Comte, Herbert Spencer and G. H. Lewes.

INTRODUCTION

Middlemarch is a multiplot novel which calls into a stealthy convergence of human lots by means of implicit comparisons and contrasts. The first of the five plots interwoven in its texture concerns the story of Dorothea Brooke whose aspiration to play the role of a provincial saint is misdirected into marriage with a sterile pedant called Casaubon. Casaubon uses her as a secretary for compiling notes on his fanciful Key to All Mythologies and pays no heed to her need for love and care. He dies of heart-attach without completing his work and Dorothea remarries his young cousin, Will Ladislaw, who takes good care of her. The second plot runs parallel to the first as it too deals with the miscarriage of Lydgate's dream of the discovery of the primitive tissue of organic matter through his thoughtless marriage with the snobbish girl, RosemndVincy, who runs him heavily into debt to maintain an extravagant life-style and forces him to leave Middlemarch for London in order to escape utter disgrace. The third plot stands in sharp contrast to all other plots because it traces the downfall of Lydgate's stypocritical benefactor, Nicholas Bulstrode, through a banking fraud. The fourth plot also stands apart from the rest in so far as it shows how the steadfast love of sensible girl like Mary Garth saves the foolish but warm-hearted Fred Vincy from falling a prey to vain expectations. The fifth plot reads like the plot of a detective novel in that it demonstrates how the rich old Featherstone chuckles over the vexations he could inflict on his greedy relatives by the rigid clutch of his dead hand. All these plots and characters slide into unforeseen relations so as to create a vast web of human lots which not only symbolizes the interdependence of men women in provincial society but also resists over-simplistic interpretations.

It was around 1841 that Eliot's dad moved the family to a bigger piece of Foleshill. This is the point at which she made bond with Cara Whinny procuring a decent companion. These creating bonds did not stop there and stretched out to Ralph Emerson. In any case, bit by bit so this trio ground to a halt when Eliot felt unusual in the midst of them. Not all that long after that did she revoke her confidence in Christ.

In spite of the fact that extramarital connections were very normal the Victorian culture, their receptiveness to the announcement of polygamy faces off regarding mixed up debate and good objection even among their most liberal arrangement of universities in the English society who were considerably more tactful to the issue.

Yet, all the tumult did not prevent Eliot from setting foot on her foundations and pulling the rigging up with works amid their go to Weimar and Berlin together with the end goal of research. She went ahead with her religious work with an interpretation of Feuerbach's The Pith of Christianity and composing articles that she

finished in 1856. These however were not distributed amid her lifetime. Her nom de plume authoritatively penned down at 1858 with her first novel Adam Bede.

With a novel this thrived at the front she headed on with her next work. The Plant on the Floss prestigious for its class in the class is as yet credited as Eliot's best works. Raised at Dorlcote Plant with Maggie Tulliver in the number one spot, it is viewed as Eliot's a standout amongst the most intense and moving self-portrayal.

The character of Maggie Tulliver is the nearest estimation of Eliot to show up in her fiction, unequivocally reflect occasions from Eliot's life don't plot focuses, and she faces a considerable lot of similar battles that Eliot did.

The Tullivers are not intended to speak to Eliot's folks, but rather Tom Tulliver is exceptionally reminiscent of Eliot's sibling Isaac Evans, and the Dodson close relatives are reminiscent of Eliot's aunties, the Pearsons. It manages a sister's rage for her sibling and the battle and clashes inside a family because of a young lady needing to seek after her fantasies and yearnings.

She started composing the novel in 1859 and it was first distributed in 1860, with a couple of ensuing overhauled versions. The novel was excitedly expected, as Adam Bede had been extremely effective, and it wound up being generally welcomed generally.

It was not as consistently commended as Adam Bede had been upon production, however it was additionally a more yearning work. Numerous commentators endlessly favored the main portion of The Factory on the Floss, which concentrates on Maggie and Tom Tulliver's childhoods, to the second half - and particularly the closure.

In this way, Silas Marner has a tendency to speak to class contrasts with verifiable exactness. Eliot appears to be attracted to this pre-mechanical time, where there was an accommodating class chain of importance in nation towns.

Looking at the generally classed unconcerned in the regard that is appeared in Raveloe to the shocking plant in the assembling town that Marner and Eppie visit in the modern world regards the lower classes as cruel machine gear-pieces in the industrial facility wheels. In Raveloe's exchange based society then every villager can assume a critical part in its prosperity.

The weaver is regarded to some degree by the Squire on the off chance that he weaves his materials well. All things being equal, one may sensibly contend that Eliot's charming delineation of cheerful workers romanticizes the troubles of the class contrasts in nineteenth-century Britain.

Marner appears to have heavenly powers where he can recuperate a neighborhood lady utilizing natural expressions he gained from his mom, yet the villagers of Raveloe don't have the foggiest idea about his experience and in this manner discover his insight devilish and undermining. Marner, as far as concerns him, is substance to carry on with an existence of practically add up to isolation in his straightforward cabin close to the Stone pits.

Marner has one bliss in life-gold. The gold coins that he wins at his linger speak to for him all the implying that he has lost, and the countenances imprinted on the coins fill in as his lone organization. He spends as meager as he can with a specific end goal to spare more coins, which he covers up in two calfskin packs in a gap in his house floor.

Madhusudan's epic poem: *Meghnad-Badh Kavya* is considered as his all-time masterpiece till today. Written in blank verse, this epic was based on the *Ramayana* but inspired by Milton's *Paradise Lost*. Madhusudan transformed the villainous Ravana into a Hero. This grand heroic-tragic epic was written in nine cantos which is quite unique in the history of Bengali Poetry. Meghnad-Badh Kavya was Bengali literature's first original epic and gave Madhusudan the status of an Epic Poet.

Much of his time abroad, especially in Versailles, was spent in abject poverty, as the money from his late father's estate on which he was relying did not come regularly. His Indian friends who had inspired him to cross the ocean had by now managed to forget the beggar Madhusudan altogether. He fell hopelessly into debts and appealed for help to the great personality, the scholar, social reformer, and activist Ishwarchandra

Vidyasagar (this kind soul was known to all as Daya Sagar – the ocean of kindness, for his immense generosity).

His extravagant life-style, fickleness in money matters, and reckless drinking to drown problems conspired to wreck his health and happiness, and likewise the health and happiness of his second partner Henrietta, who had also succumbed to alcoholism during her days of poverty in Versailles.

He was a man of real, though somewhat erratic, genius, and a courageous innovator of forms and types which altered the whole course of Bengali literature and added new dimensions to it. To his adventurous spirit, Bengali Literature owes its first blank verse and the sonnet, its first modern comedy and tragedy, and its first epic.

However, Godfrey has more serious issues than following through on the stealing obligation. At some point before he impulsively wedded a barmaid named Molly Farrell who lives in a town toward the north. This lady after some time has transformed into a laudanum junkie and a dipsomaniac.

Dunstan offers Rapidly spreading fire. Be that as it may, Dunstan at that point utilizes Fierce blaze in the chase, throughout which he pierces Out of control fire on a support stake, executing the steed. Dunstan hatches a plan to gather his cash in any case. He knows well the gossip that Silas Marner the insane weaver, has covered up in his house a huge store. He chooses to stop by the weaver's bungalow and utilize his use to obtain Marner's gold.

The night is foggy a waynd dim when Dunstan at last touches base at Marner's bungalow. At the point when Marner did not answer Dunstan welcomes himself in. After a speedy hunt he discovers Marner's gold and escapes with it.

Marner comes back from a short stumble into the town to locate his gold missing. Crushed he raced into Raveloe for help and winds up at the rainbow bar where local people have assembled for focuses and discussion. At first the villagers were alarmed of Marner. Be that as it may, in the long run his genuineness prevailed upon them and they shape a force to get the constable and look for pieces of information.

Following a little while of looking through the main piece of information revealed is a tinder-box, which the villagers review as having had a place with a suspicious voyaging pedlar whom nobody can discover. Marner is left with no gold completely hopeless yet having made some progress in interfacing with town life. The villagers feel sorry for Marner now more than they fear him, and they notwithstanding bring him blessings of comfort.

No one considers much Dunstan Cass' nonappearance. He has been known to keep running off earlier and given that he slaughtered Out of control fire no one questions that he has justifiable reason motivation to hide out. Godfrey is left with the obnoxious undertaking of moving toward his dad about the stole cash. The Squire is miffed no doubt yet he winds up excusing Godfrey who in this way keeps up his existing conditions in wretchedness.

The Christmas season touches base at Raveloe and Marner is gone by Mrs.Dolly Winthrop, a reliable and magnanimous soul whose discussion gives him a smidgen of Christmas cheer. Godfrey Cass then, surrenders himself to his spoiled destiny and chooses to benefit as much as possible from the present. He goes to the yearly Red House ball as yet wishing to wed Nancy.
